

ZHONGWEI (ZACHARY) ZHANG

Auckland, New Zealand | 027 539 8937 | zahz885@aucklanduni.ac.nz | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Master of Information Technology student at the University of Auckland with hands-on experience delivering full-stack applications in four-to-six-person teams. Built and deployed web applications using React, Next.js, TypeScript, SvelteKit, Node.js and SQL, backed by earlier system and product engineering experience at Tencent and Shanxi Xinhui Technology.

EDUCATION

Master of Information Technology, University of Auckland | Jul 2025 - Present

Bachelor of Mechanical Engineering, Xi'an Jiaotong University | Sep 2017 - Jul 2021

SELECTED NEW ZEALAND ICT PROJECTS

Last Answer - Browser-Based Fantasy Quiz RPG | Six-Person Team | 2026

Next.js / React / TypeScript / Tailwind CSS / Zustand / PostgreSQL / Vitest / Vercel

- Owned the quiz-battle subsystem, separating deterministic TypeScript combat logic from React presentation across timed questions, HUDs, support tools, combos, boss encounters and reward transitions.
- Implemented four tactical support mechanics and performance-based rewards driven by accuracy, speed and combo state, with responsive animation and scene-aware audio feedback.
- Collaborated through feature branches, pull requests, code review, regression testing and integration fixes across the battle, UI, audio and quest workstreams.

DoraBlog - Full-Stack Blogging Platform | Four-Person Team | 2025-2026

SvelteKit / Node.js / Express / SQLite / Turso / Vercel Blob / Java / REST APIs

- Delivered end-to-end registration, authentication and profile workflows across SvelteKit and Express, including bcrypt hashing, HttpOnly JWT cookies, real-time validation, avatar uploads and account deletion.
- Built article search and sorting, integrated the Java Swing administration client, and resolved cross-layer API, session and database defects.
- Deployed the application to Vercel, migrating local SQLite and filesystem storage to Turso/libSQL and Vercel Blob for serverless production persistence.

PROFESSIONAL EXPERIENCE

System Engineer, Tencent | Oct 2024 - Apr 2025

- Supported system-development activities in a full-time engineering environment, collaborating across functions to coordinate technical information, priorities and day-to-day delivery.
- Applied structured problem-solving to clarify technical issues and communicate progress, dependencies and follow-up actions to relevant colleagues.

Product Development Engineer, Shanxi Xinhui Technology Co., Ltd. | Sep 2021 - Jul 2024

- Contributed to product-development and engineering activities, working with colleagues to support technical delivery and resolve day-to-day issues.
- Worked in a deadline-driven environment requiring ownership, adaptability and clear communication across concurrent engineering tasks.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, SQL, HTML, CSS

Frameworks & Runtime: React, Next.js, SvelteKit, Node.js, Express, Tailwind CSS, Zustand

Data, Testing & Delivery: PostgreSQL, SQLite, Turso/libSQL, REST APIs, Vitest, Git, GitHub, Vercel
